## Education

### GLA University

*Bachelor of Science in Computer Science*

August 2018 – May 2022

*Mathura, Uttar Pradesh*

### Relevant Coursework

- Data Structures
- Algorithms Analysis
- OOPs
- Web Development
- SQL Management Server
- Database Management
- Internet Technology
- Operating System

## Experience

### KPS Consulting Services

August 2022 – Present

*Software Developer*

- Developed and optimized SQL queries to retrieve, manipulate, and update data in databases.
- Implement and enhance responsive, user-friendly web pages using modern front-end technologies such as HTML5, CSS3, JavaScript, and Angular.
- Work with the KPS team to build the front end of applications through appealing visual design and maintaining database.
- Explored ways to visualize and send a daily report of test results to team members using HTML, Javascript, and CSS.

### KPS Consulting Services

June 2022 – August 2022

*Software Developer Internship*

- Developed an e-commerce website (Mobilive) using front-end technologies, encompassing key features such as login and user registration forms, and database management capabilities.
- Completed an intensive training program on Web Development, acquiring expertise in both Front-End and Back-End technologies.
- Applied acquired knowledge to develop web applications as part of the training curriculum, demonstrating proficiency in implementing responsive and user-friendly interfaces with HTML, CSS, Bootstrap, and JavaScript.
- Collaborated with a team of fellow interns on group projects, contributing to the design and implementation of responsive and user-friendly interfaces with HTML, CSS, Bootstrap, and JavaScript.

## Projects

### Real-time Location Tracking | *React, HTML, CSS, JavaScript, MySQL, Geolocation API*

February 2024

- Developed a real-time location-tracking web application with user authentication, map integration, location history storage, notifications, and security measures.
- Integrated browser Geolocation API for real-time tracking and notifications, enhancing user experience and engagement.
- Collaborated closely with team members to ensure seamless integration of features and functionalities, contributing to the overall success of the real-time location-tracking web application.

### ATM Machine Project | *Java, IDE(IntelliJ)*

September 2023

- A project where I validate the user through the ATM number and pin and the user should be able to perform some operation.
- Check available balance, Withdrawal amount, Deposit amount, View mini statement, and Exit.

### Test Centre Audit Project | *HTML, CSS, JavaScript, PHP*

March 2022

- Contributed to the development of a web-based platform for test center auditing, focusing on database connectivity.
- Played a key role in ensuring user-friendly interface design and functionality.
- Collaborated closely with team members to meet project requirements and deliver on schedule.

## Technical Skills

**Languages:** Java, Python, Object Oriented Programming, .NET, HTML/CSS, JavaScript, Bootstrap, SQL

**Developer Tools:** VS Code, IDE(IntelliJ), Visual Studio 2022

**Technologies/Frameworks:** GitHub, WordPress

## Leadership / Extracurricular

- Led a team of interns in developing an e-commerce website at Zidio, overseeing the implementation of key features and ensuring timely project delivery.
- Attended a workshop on Operating Systems, enriching my understanding of fundamental concepts and practical applications in system architecture and management.
- Attended CETPA Infotech's Machine Learning workshop to gain practical insights and deepen understanding of algorithms, data preprocessing, model evaluation, and deployment strategies.
